MEMORANDUM FOR: [REDACTED]
Legislative Counsel

SUBJECT: Comments on Senate Resolution 254

1. The subject Senate Resolution, dealing with the investigative authorizations for the Committee on Aeronautical and Space Sciences, has reached this Office via the DD/S&T. Although the covering Form 488 does not request comments, nor is there any indication of what chance you may give this bill for passage, we are moved to suggest that in its present form, particularly lines 6 through 11 of the preambulatory resolution on the fourth page, give us pause for concern over the Agency's air activities in general, and OSA compartmented aeronautics and space responsibilities in particular.

2. I do not feel prepared to suggest any form of qualifier to the resolution for your consideration, but I would appreciate your views on whether or not you think this rather broad charter would give the Senate Committee, or its authorized subcommittees, a hunting license in the field of covert reconnaissance of one sort or another.
